

OUR INSECT CURTAINS RANGE ARE IDEAL FOR HIGH VOLUME AREAS, WHERE YOU NEED TO LET THE FRESH AIR IN WHILST KEEPING BUGS OUT!

BENEFITS

- Keeps out insects and airborne pests
- Stops cross contamination
- Hands-free access
- Easy to install
- Durable - ideal for high volume use

APPLICATIONS

- Environments with hot kitchens (bakeries, restaurants, supermarkets)
- Storage & stocking areas
- Offices & retail
- Domestic doors

RANGE

- **Mesh Insect Curtains**

Designed to allow fresh air to pass through while blocking pests, our mesh strips are weighted at the bottom to ensure easy access and instant self-closing.

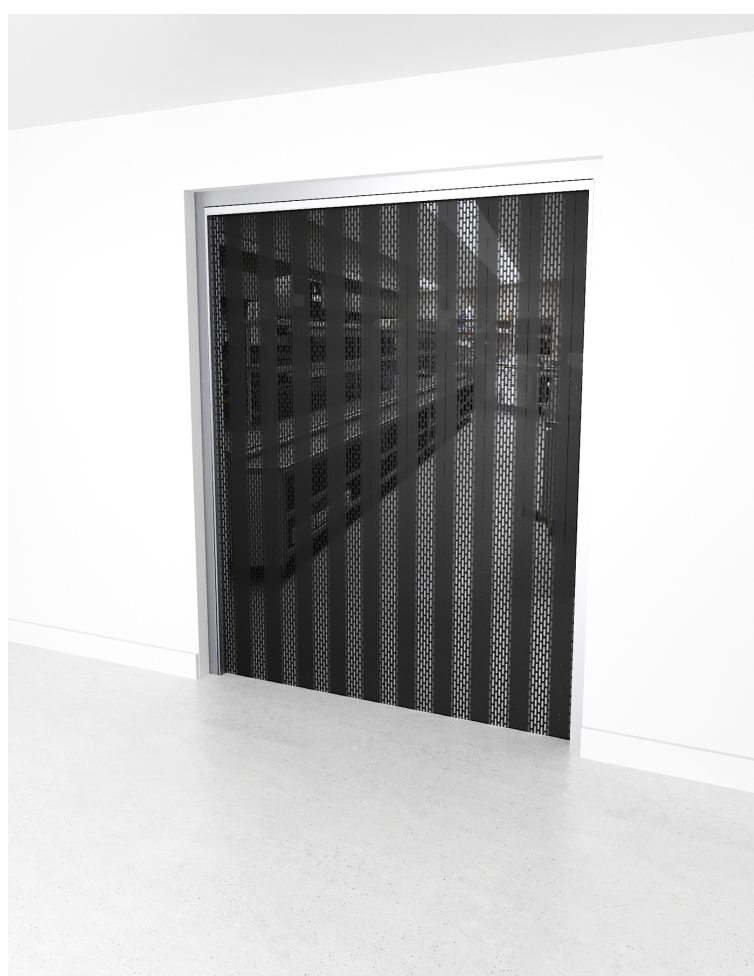

- **Perforated PVC Curtains**

Clear PVC with small perforations throughout to allow fresh air to circulate but block pests from entering.

Perfect for office and retail doorways.

- **Anti-Insect PVC Curtains**

Translucent yellow PVC containing citronella, this PVC is designed to repel insects with the scent and colour.
